

cost effective Oracle Service Cloud update services

CUSTOMER PORTAL FRAMEWORK MIGRATION

customer portal V2 to customer portal v3

DESCRIPTION

You have been effectively using the Oracle Service Cloud Customer Portal framework for your clients to use online?

You want to maintain a leading position of offering a state-of-the-art online customer journey?

Now Oracle has launched a major update that allows for new features that you cannot miss out on.

Why migrate to Customer Portal Framework v3?

- Less coding for improved Productivity
- Versioning for easy maintenance
- Automatic updates without extra efforts
- Software modernisations
- Lower total cost of ownership

WHAT WE DO

As a Certified Specialist Oracle Gold Partner, Wesquare upgrades your CPF including all customizations with an experienced team of dedicated Oracle Service Cloud developers while aiming at short turn around times.

INTERESTED?

Please get in touch to start reaping the benefit of the Customer Portal v3. WeSquare can deliver from today and support your solution in the future, depending on what is required.

“Improving complete and complex Oracle Service Cloud solutions is what we do best, cost effectively.”
